Message Body:

Dear Members of the Town of Southeast Town Board,

I want to thank you in advance for your proactive support of the Crossroads 312 project!

The proposed Crossroads 312 project serves as a key example of opportunities our Town needs more of. Jobs. Economic development. Tax relief!

The project is expected to generate more than \$5.2 Million in tax revenue through property and sales taxes for our community, while not impacting schools.

Between construction jobs and permanent full and part staffing that will be needed in the retail, restaurant, and hotel locations over 700 good paying local jobs will be created.

The New York State Police, Putnam County Sheriff's Office, and Brewster Fire Department have all cleared this project from a safety point of view, and have adequate resource to maintain the top notch service we have come to expect from their respective departments.

The Town Board will be faced with the choice to support this project at an upcoming meeting. This project is of critical importance to my neighbors and I. Our town is counting on your support.

Thank you in advance and please continue to vote to support the Crossroads 312 project.

Thank you again and I look forward to thanking you, in person, for your positive support.

Sincerely,
William Henry

Dear Southeast Town Board,

I would like to reiterate my disgust at the proposal before you (my elected) to rezone for crossroads 312. I do not object to staying with the current zoning and allowing for appropriate development. We are all mature and wise enough to know that to rezone would be horribly detrimental to our quality of life in this beautiful town of SOUTHEAST. Please think about your constituents and not special interest groups like these developers. (Is it my imagination or do their most recent post cards with lots of GLOSSINESS resemble those of GREG BALL???? Now look at the news paper headlines regarding his promises and behavior . We the people NEED YOU! Visit route 7 in Danbury Ct. if you need a refresher in development and congestion. Also visit beautiful surrounding towns and see what your developers are proposing....and guess what every one wants to live in these beautiful places. I work with doctors and surgeons every day. They will never want to live here if YOU DO NOT PRESERVE THE BEAUTY BEFORE YOU. It is that simple. We do not want this to happen here. Let the developer put this project where he lives(will never happen) Let the developer point to the mountain in the distance and tell his grand child " I am going to tear that down for you and build a real nice box store/ hotel. Would you like that my love? " Let the developer sit in traffic in his car every day trying to get to school or work or a fire/emergency. Let the developer gaze out on the lights in the parking lots or hear the noise of traffic . If you do not stop this I will never forget this being your boards decision. Only those brave people who oppose it will ever have my confidence or vote again as my leaders.

Sincerely,
Theresa Brandon RN, BSN

PS Why is facebook collecting like/dislike votes from residents of Danbury Ct.? I hope you are screening the information you get from developers for accuracy in numbers.

Subject: public hearing Crossroads 312

Town Board Members,

I got home last night from the public hearing and was quite aggravated. I'm appalled at the argument, in my opinion, that the left brings to every public hearing. I wonder at times what planet they come from because they clearly are not the majority in this town.

I moved here 2 weeks before September 11, 2001 after having served my country honorably. One of the things I'm very proud of with regards to this town is the fact that it has consistently remained a republican town ever since and also the fact that Putnam has consistently remained the only republican county south of Albany. Many people in this country have forgotten how they felt on September 11th. Not the people of the Town of Southeast. They have proven through the election process that we remain true to the ideals of liberty and freedom. With that comes the values of hard work, capitalism and taking care of each other.

The Crossroads 312 project, in my opinion, is in harmony with these values and ideals. It supports the choice of the people to live their lives how they choose. We currently have limited choices to shop close to home. Since when has it become a crime to live the ideals of capitalism in this town?

The people of the Town of Southeast elect republicans for a reason. We expect the candidates that we vote for to live these ideals and make decisions that support these ideals. If you are a republican and you vote no to a project such as this, you not only should be ashamed, but you have cowardly succumbed to the pressure of the people that represent less than 1% of the population of this town. I respectfully request that every republican on the Town Board have the courage to represent the ideals of our party and vote yes to the zoning change. As Mr. Cullen said last night, projects have failed in the past. Don't let this one be the next. It's time for courage."

Respectfully,

Jim Hogan

Subject: Crossroads

I was at the recent and was unable to take the microphone but I would like to address two things. The first is the change of the code. This would be a horrible mistake which would affect other potential projects. Mostly my concerns are regarding the traffic problem. This already exists. I live 2 tenths of a mile from 312 on north brewster road. There already is a huge traffic problem. Sometimes it is impossible to get onto 312 to go to the medical building ... it is easier to go through town onto rte 6 because the traffic doesn't let cars on. I know there will be traffic lights but trying to return home from there is at least a 10 minute experience. I'm also concerned about the traffic when the Assembly of God and the possibility of commercial entrance in Dykeman's to the recent clearing of that property and potential development there. Cars from 22 have begun using the Sodom Rd exit and has caused increased traffic on Brewster Hill Rd. I began coming to brewster in 1954 in the summers moving up permanently in 1960. I have seen many changes and especially the deterioration of a village that once alive with stores and gathering of people going to a variety of stores and the theater. The village is a disgrace. We should be concerned about the many vacancies that exist and not expanding for hotel and more strip mall stores that will eventually be more vacant space. Finally I wonder why the area Mr Kepler wanted to develop leading to Ct. Isn't being considered and why is the property where the Fox Ridge motel was isn't a good spot for a hotel.

Vicki LaMere.

To all town board members- please vote NO for the rezoning of the property on rt 312. I am a 30 yr resident of this town, and a 22 yr member of the Brewster VOLUNTEER Fire Department. I feel that traffic congestion will be unbearable for the whole area of Rt 312;Rt 22;N. Brewster Rd;Brewster Hill Rd., etc. This huge project could be the "straw that broke the camel's back" as far as traffic and increased call volume for the volunteer fire and EMS services.

Thank you.

We ask that you do not change the zoning for the crossroads project. We are particular worried about the negative effect of more traffic on the school children and special education children taking longer to get to school and home. Also, because of the added traffic, it would be very difficult for the volunteer fire department to get to their fire department by traffic tie ups which would be daily.

There are too many valid reasons why this should not be changed.

Thank you.

Chris Chiaro

Dear Members of the Town of Southeast Town Board,

I want to thank you in advance for your proactive support of the Crossroads 312 project!

The proposed Crossroads 312 project serves as a key example of opportunities our Town needs more of. Jobs. Economic development. Tax relief!

The project is expected to generate more than \$5.2 Million in tax revenue through property and sales taxes for our community, while not impacting schools.

Between construction jobs and permanent full and part staffing that will be needed in the retail, restaurant, and hotel locations over 700 good paying local jobs will be created.

The New York State Police, Putnam County Sheriff's Office, and Brewster Fire Department have all cleared this project from a safety point of view, and have adequate resource to maintain the top notch service we have come to expect from their respective departments.

The Town Board will be faced with the choice to support this project at an upcoming meeting. This project is of critical importance to my neighbors and I. Our town is counting on your support.

Thank you in advance and please continue to vote to support the Crossroads 312 project.

Thank you again and I look forward to thanking you, in person, for your positive support.

Sincerely,
Rosemary Foss
