### Full Environmental Assessment Form

#### Part 1 - Project and Setting

**Instructions for Completing Part 1**

**Part 1 is to be completed by the applicant or project sponsor.** Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

#### A. Project and Sponsor Information.

<table>
<thead>
<tr>
<th>Name of Action or Project:</th>
<th>Alfacor, LLC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Location (describe, and attach a general location map):</td>
<td>291 Deans Corner Road &amp; 14 Fields Lane</td>
</tr>
<tr>
<td>Brief Description of Proposed Action (include purpose or need):</td>
<td>Construction of two new commercial buildings with associated parking/loading areas and driveways. Buildings will be served by a new onsite drilled well and a new onsite sewage disposal system. Drainage systems will be installed to treat the stormwater runoff from the new impervious surfaces.</td>
</tr>
<tr>

</table>

i. Coastal Resources.

ii. Is the project site located in a community with an approved Local Waterfront Revitalization Program? ☐ Yes ☑ No

iii. Is the project site within a Coastal Erosion Hazard Area? ☐ Yes ☑ No

C. Planning and Zoning

C.1. Planning and zoning actions.

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? ☐ Yes ☑ No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part I

C.2. Adopted land use plans.

a. Do any municipally-adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? ☐ Yes ☑ No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) ☑ Yes ☐ No

If Yes, identify the plan(s):

NYC Watershed Boundary

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? ☐ Yes ☑ No

If Yes, identify the plan(s):

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________
C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. □ Yes □ No
   If Yes, what is the zoning classification(s) including any applicable overlay district?

   OP-1 Office Park

b. Is the use permitted or allowed by a special or conditional use permit? □ Yes □ No

c. Is a zoning change requested as part of the proposed action?
   □ Yes □ No
   i. What is the proposed new zoning for the site?

C.4. Existing community services.

a. In what school district is the project site located? Brewster

b. What police or other public protection forces serve the project site?
   Putnam County Sheriffs Department & New York State Police

c. Which fire protection and emergency medical services serve the project site?
   Brewster Fire Department

d. What parks serve the project site?
   Putnam County Parks & Recreation

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Commercial/Office

b. a. Total acreage of the site of the proposed action? 31.5 acres
   b. Total acreage to be physically disturbed? 9.64 acres
   c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 37.95 acres

c. Is the proposed action an expansion of an existing project or use? □ Yes □ No
   i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % ____________________ Units: ____________________

d. Is the proposed action a subdivision, or does it include a subdivision? □ Yes □ No
   i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)

   ii. Is a cluster/conservation layout proposed? □ Yes □ No

   iii. Number of lots proposed? ________

   iv. Minimum and maximum proposed lot sizes? Minimum _______ Maximum ________

e. Will proposed action be constructed in multiple phases? □ Yes □ No
   i. If No, anticipated period of construction: _____ months

   ii. If Yes:
      • Total number of phases anticipated 3
      • Anticipated commencement date of phase 1 (including demolition) 9 month 2019 year
      • Anticipated completion date of final phase 9 month 2021 year
      • Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases:
        Phase 1 will include excavation of an existing hilltop to provide construction material for Phase 2. During Phase 2 the excavated material will be placed to created new fill pad for Building #1. Phases 3 and 4 include the construction of the remaining two buildings.
### f. Does the project include new residential uses?

If Yes, show numbers of units proposed.

<table>
<thead>
<tr>
<th></th>
<th>One Family</th>
<th>Two Family</th>
<th>Three Family</th>
<th>Multiple Family (four or more)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Initial Phase</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>At completion of all phases</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Yes
- No

If Yes, show numbers of units proposed.

- One Family
- Two Family
- Three Family
- Multiple Family (four or more)

### g. Does the proposed action include new non-residential construction (including expansions)?

- Yes
- No

If Yes,

1. Total number of structures: 2
2. Dimensions (in feet) of largest proposed structure:
   - \(< 45'\) height;
   - \(200'\) width;
   - \(450'\) length
3. Approximate extent of building space to be heated or cooled: 99,900 square feet

### h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage?

- Yes
- No

If Yes,

1. Purpose of the impoundment:
2. If a water impoundment, the principal source of the water:
   - Ground water
   - Surface water streams
   - Other specify:
3. If other than water, identify the type of impounded/contained liquids and their source.
4. Approximate size of the proposed impoundment.
   - Volume: ____________ million gallons; surface area: ____________ acres
5. Dimensions of the proposed dam or impounding structure: ____________ height; ____________ length
6. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete):

### D.2. Project Operations

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)

- Yes
- No

If Yes:

1. What is the purpose of the excavation or dredging?
2. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
   - Volume (specify tons or cubic yards):
   - Over what duration of time?
3. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.
4. Will there be onsite dewatering or processing of excavated materials?
   - Yes
   - No

v. What is the total area to be dredged or excavated?
   - ____________ acres

vi. What is the maximum area to be worked at any one time?
   - ____________ acres

vii. What would be the maximum depth of excavation or dredging?
   - ____________ feet

viii. Will the excavation require blasting?
   - Yes
   - No

ix. Summarize site reclamation goals and plan:

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area?

- Yes
- No

If Yes:

1. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description):
### ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Extent of Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excavation</td>
<td>100 square feet</td>
</tr>
<tr>
<td>Fill</td>
<td>50 square feet</td>
</tr>
<tr>
<td>Placement of structures</td>
<td>75 square feet</td>
</tr>
<tr>
<td>Alteration of channels</td>
<td>50 square feet</td>
</tr>
<tr>
<td>Banks and Shorelines</td>
<td>25 square feet</td>
</tr>
</tbody>
</table>

### iii. Will proposed action cause or result in disturbance to bottom sediments?
- [ ] Yes  
- [ ] No

If Yes, describe:

### iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation?
- [ ] Yes  
- [ ] No

If Yes:
- Acres of aquatic vegetation proposed to be removed: [ ]
- Expected acreage of aquatic vegetation remaining after project completion: [ ]
- Purpose of proposed removal (e.g. beach clearing, invasive species control, boat access): [ ]

- Proposed method of plant removal:
- If chemical/herbicide treatment will be used, specify product(s):
- Proposed method of plant removal:
- If chemical/herbicide treatment will be used, specify product(s):

### v. Describe any proposed reclamation/mitigation following disturbance:

Describe any proposed reclamation/mitigation following disturbance: [ ]

### c. Will the proposed action use, or create a new demand for water?
- [ ] Yes  
- [ ] No

If Yes:
- Total anticipated water usage/demand per day: [ ] To be determined gallons/day

### i. Total anticipated water usage/demand per day:

<table>
<thead>
<tr>
<th>Gallons/Day</th>
</tr>
</thead>
<tbody>
<tr>
<td>T.B.D.</td>
</tr>
</tbody>
</table>

### ii. Will the proposed action obtain water from an existing public water supply?
- [ ] Yes  
- [ ] No

If Yes:
- Name of district or service area:
- Does the existing public water supply have capacity to serve the proposal?: [ ]
- Is the project site in the existing district?: [ ]
- Is expansion of the district needed?: [ ]
- Do existing lines serve the project site?: [ ]

### iii. Will line extension within an existing district be necessary to supply the project?
- [ ] Yes  
- [ ] No

If Yes:
- Describe extensions or capacity expansions proposed to serve this project:
- Source(s) of supply for the district:

### iv. Is a new water supply district or service area proposed to be formed to serve the project site?
- [ ] Yes  
- [ ] No

If Yes:
- Applicant/sponsor for new district:
- Date application submitted or anticipated:
- Proposed source(s) of supply for new district:

### v. If a public water supply will not be used, describe plans to provide water supply for the project:

Proposed well will be drilled onsite to serve the buildings.

### vi. If water supply will be from wells (public or private), maximum pumping capacity: [ ] T.B.D. gallons/minute.

<table>
<thead>
<tr>
<th>Gallons/Minute</th>
</tr>
</thead>
<tbody>
<tr>
<td>T.B.D.</td>
</tr>
</tbody>
</table>

### d. Will the proposed action generate liquid wastes?
- [ ] Yes  
- [ ] No

If Yes:
- Total anticipated liquid waste generation per day: [ ] T.B.D. gallons/day
- Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each):
  - Sanitary wastewater.

### iii. Will the proposed action use any existing public wastewater treatment facilities?
- [ ] Yes  
- [ ] No

If Yes:
- Name of wastewater treatment plant to be used:
- Name of district:
- Does the existing wastewater treatment plant have capacity to serve the project?: [ ]
- Is the project site in the existing district?: [ ]
- Is expansion of the district needed?: [ ]
• Do existing sewer lines serve the project site? □Yes □No
• Will line extension within an existing district be necessary to serve the project? □Yes □No
  If Yes:
  • Describe extensions or capacity expansions proposed to serve this project: ________________________________

  iv. Will a new wastewater (sewage) treatment district be formed to serve the project site? □Yes □No
  If Yes:
  • Applicant/sponsor for new district: ________________________________
  • Date application submitted or anticipated: ________________________________
  • What is the receiving water for the wastewater discharge? ________________________________

  v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed
  receiving water (name and classification if surface discharge, or describe subsurface disposal plans):
  ______________________________________________________________
  A subsurface sewage disposal system will be installed onsite to serve the two proposed buildings. The system will consist of septic tanks, pump
  chambers, and absorption trenches in accordance with PCDH rules and regulations.

  vi. Describe any plans or designs to capture, recycle or reuse liquid waste: ________________________________
      Not applicable.

  e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point
  sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point
  source (i.e. sheet flow) during construction or post construction? □Yes □No
  If Yes:
  i. How much impervious surface will the project create in relation to total size of project parcel?____
     Square feet or ____________________ acres (impervious surface)
     Square feet or ____________________ acres (parcel size)
  ii. Describe types of new point sources. Stormwater management system discharge pipes to rock outlet protection pads.

  iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties,
  groundwater, on-site surface water or off-site surface waters)?
  Stormwater runoff will be directed to onsite stormwater management practices for treatment and attenuation.

  • If to surface waters, identify receiving water bodies or wetlands: ________________________________

  • Will stormwater runoff flow to adjacent properties? □Yes □No

  iv. Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? □Yes □No

  f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel
  combustion, waste incineration, or other processes or operations? □Yes □No
  If Yes, identify:
  i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)
     Typical construction vehicle traffic will create fuel combustion.
  ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)

  iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)

  g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit? □Yes □No
  If Yes:
  i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet
     ambient air quality standards for all or some parts of the year) □Yes □No
  ii. In addition to emissions as calculated in the application, the project will generate:
     • ________ Tons/year (short tons) of Carbon Dioxide (CO₂)
     • ________ Tons/year (short tons) of Nitrous Oxide (N₂O)
     • ________ Tons/year (short tons) of Perfluorocarbons (PFCs)
     • ________ Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
     • ________ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
     • ________ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)
h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? □ Yes ✔ No
   i. Estimate methane generation in tons/year (metric): ________________________________
   ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): ________________________________________________________________
   i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? □ Yes ✔ No
   If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): ________________________________________________________________
   j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? □ Yes ✔ No
   If Yes:
   i. When is the peak traffic expected (Check all that apply): ☐ Morning ✔ Evening ☐ Weekend
   ☐ Randomly between hours of ______ to ______.
   ii. For commercial activities only, projected number of semi-trailer truck trips/day: 20
   iii. Parking spaces: Existing 0 Proposed 60 Net increase/decrease 60
   iv. Does the proposed action include any shared use parking? □ Yes ✔ No
   v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe: ________________________________
   vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site? □ Yes ✔ No
   vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? □ Yes ✔ No
   viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? □ Yes ✔ No
   k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? □ Yes ✔ No
   If Yes:
   i. Estimate annual electricity demand during operation of the proposed action:
   Typical warehouse electricity demands to be coordinated with the utility company.
   ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other):
   Electricity will be provided from the existing local power grid. Electric lines to connect to existing utility pole located on 14 Fields Lane
   iii. Will the proposed action require a new, or an upgrade to, an existing substation? □ Yes ✔ No
   l. Hours of operation. Answer all items which apply.
   i. During Construction:
   - Monday - Friday: 7:00am - 5:00pm
   - Saturday: 7:00am - 1:00pm
   - Sunday: None
   - Holidays: None
   ii. During Operations:
   - Monday - Friday: TBD
   - Saturday: TBD
   - Sunday: TBD
   - Holidays: TBD
m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?  ✔ Yes ☐ No
  If yes:
  i. Provide details including sources, time of day and duration:
    Will meet the requirements of Chapter 96 of the Town Code.
  
  ii. Will proposed action remove existing natural barriers that could act as a noise barrier or screen?  ☐ Yes ✔ No
    Describe: ___________________________  
    
  n. Will the proposed action have outdoor lighting?  ✔ Yes ☐ No
  If yes:
  i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:
    Typical exterior wall-mounted lighting for the buildings and lighting poles for the parking areas. See Lighting Plan for specific types/locations.
  
  ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen?  ☐ Yes ✔ No
    Describe: ___________________________
    
  o. Does the proposed action have the potential to produce odors for more than one hour per day?  ☐ Yes ✔ No
  If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:  
    
  p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage?  ☐ Yes ✔ No
  If Yes:
  i. Product(s) to be stored  
  ii. Volume(s) ______ per unit time ___________ (e.g., month, year)
  iii. Generally describe proposed storage facilities:  
    
  q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?  ☐ Yes ✔ No
  If Yes:
  i. Describe proposed treatment(s):
    
  ii. Will the proposed action use Integrated Pest Management Practices?  ☐ Yes ✔ No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?  ✔ Yes ☐ No
  If Yes:
  i. Describe any solid waste(s) to be generated during construction or operation of the facility:
    • Construction:  ________________  TBD tons per ________________ (unit of time)
    • Operation:  ________________  TBD tons per ________________ (unit of time)
  ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:
    • Construction:  Recycling of soils and materials will be incorporated as much as possible during construction. (Balancing earthwork.)
    • Operation:  Recycling of materials will be in accordance with applicable local and state regulations.
  iii. Proposed disposal methods/facilities for solid waste generated on-site:
    • Construction:  Solid waste will be removed from the site via temporary onsite dumpsters.
    • Operation:  Solid waste will be removed from the site via local sanitation services.
s. Does the proposed action include construction or modification of a solid waste management facility?  
Yes ☐ No ☑

If Yes:

i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities): ________________________

ii. Anticipated rate of disposal/processing:
   - ______ Tons/month, if transfer or other non-combustion/thermal treatment,
   - ______ Tons/hour, if combustion or thermal treatment

iii. If landfill, anticipated site life: ____________________ years

T. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste?  
Yes ☐ No ☑

If Yes:

i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility: ________________________

ii. Generally describe processes or activities involving hazardous wastes or constituents: ________________________

iii. Specify amount to be handled or generated ______ tons/month

iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents: ________________________

v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility?  
Yes ☐ No ☑

If Yes: provide name and location of facility: ________________________

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility: ________________________

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site

a. Existing land uses.

i. Check all uses that occur on, adjoining and near the project site.

☐ Urban ☐ Industrial ☑ Commercial ☑ Residential (suburban) ☐ Rural (non-farm)
☐ Forest ☐ Agriculture ☐ Aquatic ☐ Other (specify): ________________________

ii. If mix of uses, generally describe:

________________________________________

b. Land uses and covertypes on the project site.

g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? 
   If Yes:  
   i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred:  
      __________________________________________________________________________________________

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? 
   If Yes:  
   i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:  
      □ Yes – Spills Incidents database Provide DEC ID number(s): _______________________________________________________________________
      □ Yes – Environmental Site Remediation database Provide DEC ID number(s): _______________________________________________________________________
      □ Neither database

   ii. If site has been subject of RCRA corrective activities, describe control measures:  
      __________________________________________________________________________________________

   iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? 
      If yes, provide DEC ID number(s): _______________________________________________________________________

   iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):  
      __________________________________________________________________________________________
v. Is the project site subject to an institutional control limiting property uses?  
   • If yes, DEC site ID number: ____________________________  
   • Describe the type of institutional control (e.g., deed restriction or easement): ____________________________  
   • Describe any use limitations: ____________________________  
   • Describe any engineering controls: ____________________________  
   • Will the project affect the institutional or engineering controls in place?  
     □ Yes □ No
     - Explain: ____________________________  

E.2. Natural Resources On or Near Project Site

   a. What is the average depth to bedrock on the project site?  
     □ Yes □ No
     - > 8 feet  

   b. Are there bedrock outcroppings on the project site?  
     □ Yes □ No
     - If Yes, what proportion of the site is comprised of bedrock outcroppings? __________%  

   c. Predominant soil type(s) present on project site:  
      - Paxton loam 37 %  
      - Riverhead loam 27 %  
      - Fredon silt loam 14 %

   d. What is the average depth to the water table on the project site?  
     □ Yes □ No
     - Average: 6 feet  

   e. Drainage status of project site soils:  
      - Well Drained: 36 % of site  
      - Moderately Well Drained: 39 % of site  
      - Poorly Drained: 25 % of site

   f. Approximate proportion of proposed action site with slopes:  
      - 0-10%: 52 % of site  
      - 10-15%: 20 % of site  
      - 15% or greater: 28 % of site

   g. Are there any unique geologic features on the project site?  
     □ Yes □ No
     - If Yes, describe: ____________________________  

   h. Surface water features.
      i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)?  
         □ Yes □ No
      ii. Do any wetlands or other waterbodies adjoin the project site?  
         □ Yes □ No
      iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency?  
         □ Yes □ No
      iv. For each identified regulated wetland and waterbody on the project site, provide the following information:
         - Streams: Name Unnamed Stream Classification C  
         - Lakes or Ponds: Name Unnamed Pond Classification C  
         - Wetlands: Name DEC Wetland Approximate Size 42.5  
         - Wetland No. (if regulated by DEC) PE-2

   v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?  
      □ Yes □ No
      - If yes, name of impaired water body/bodies and basis for listing as impaired: ____________________________  

   i. Is the project site in a designated Floodway?  
      □ Yes □ No

   j. Is the project site in the 100 year Floodplain?  
      □ Yes □ No

   k. Is the project site in the 500 year Floodplain?  
      □ Yes □ No

   l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer?  
      □ Yes □ No
      - If Yes:
         i. Name of aquifer: Principal aquifer
m. Identify the predominant wildlife species that occupy or use the project site:

<table>
<thead>
<tr>
<th>Wildlife Species</th>
<th>Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deer</td>
<td></td>
</tr>
<tr>
<td>Song Birds</td>
<td></td>
</tr>
<tr>
<td>Raccoons</td>
<td></td>
</tr>
</tbody>
</table>

n. Does the project site contain a designated significant natural community?
   ☐ Yes ☑ No
   i. Describe the habitat/community (composition, function, and basis for designation):

ii. Source(s) of description or evaluation:

iii. Extent of community/habitat:
   - Currently: ___________ ___________ acres
   - Following completion of project as proposed: ___________ ___________ acres
   - Gain or loss (indicate + or -): ___________ ___________ acres

o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species?
   ☑ Yes ☐ No

p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern?
   ☐ Yes ☑ No

q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing?
   ☐ Yes ☑ No
   If yes, give a brief description of how the proposed action may affect that use:

E.3. Designated Public Resources On or Near Project Site

a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?
   ☐ Yes ☑ No
   If Yes, provide county plus district name/number:

b. Are agricultural lands consisting of highly productive soils present?
   ☐ Yes ☑ No
   i. If Yes: acreage(s) on project site? ________________________________
   ii. Source(s) of soil rating(s): ________________________________

c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark?
   ☐ Yes ☑ No
   If Yes:
   i. Nature of the natural landmark: ☐ Biological Community ☐ Geological Feature
   ii. Provide brief description of landmark, including values behind designation and approximate size/extent:

   ________________________________
   ________________________________

   d. Is the project site located in or does it adjoin a state listed Critical Environmental Area?
      ☐ Yes ☑ No
      If Yes:
      i. CEA name:
      ii. Basis for designation:
      iii. Designating agency and date:
e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places? □ Yes ☑ No
   If Yes:
   i. Nature of historic/archaeological resource: □ Archaeological Site  □ Historic Building or District
   ii. Name: ____________________________
   iii. Brief description of attributes on which listing is based:

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory? ☑ Yes □ No

g. Have additional archaeological or historic site(s) or resources been identified on the project site? □ Yes ☑ No
   If Yes:
   i. Describe possible resource(s): ____________________________
   ii. Basis for identification: ____________________________

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? □ Yes ☑ No
   If Yes:
   i. Identify resource: ____________________________
   ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): ____________________________
   iii. Distance between project and resource: ____________________________ miles.

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? □ Yes ☑ No
   If Yes:
   i. Identify the name of the river and its designation: ____________________________
   ii. Is the activity consistent with development restrictions contained in 6 NYCRR Part 666? □ Yes ☑ No

F. Additional Information
Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification
I certify that the information provided is true to the best of my knowledge.

Applicant/Sponsor Name: Timothy S. Allen, P.E. Date: 2/4/19
Signature: ____________________________ Title: Sponsor/Project Engineer
### Disclaimer:
The EAF Mapper is a screening tool intended to assist project sponsors and reviewing agencies in preparing an environmental assessment form (EAF). Not all questions asked in the EAF are answered by the EAF Mapper. Additional information on any EAF question can be obtained by consulting the EAF Workbooks. Although the EAF Mapper provides the most up-to-date digital data available to DEC, you may also need to contact local or other data sources in order to obtain data not provided by the Mapper. Digital data is not a substitute for agency determinations.
